What is Examon AI

How does Examon AI integrate ai in education?

Examon AI harnesses the capabilities of artificial intelligence to revolutonize the way students prepare for IB exams. AI is used to generate exam-style questions that mirror real IB past paper questions. Additionally students receive instant AI-powered feedback on their answers, which is tailored to the IB marking criteria. This immediate response helps students learn from their mistakes, understand the IB's expectations, and refine their answering techniques to score higher marks
